Clinical Semesters Notice

Please be advised that the academic schedules regarding rotations' timetables for the clinical Semesters 8, 9, 10, 11, and 12 will henceforth be uploaded separately for each academic semester and designated student group. These files will be systematically deposited into their respective, dedicated directories within the institutional repository, strictly categorized according to each specific clinical rotation.

Students enrolled in the clinical phase of the curriculum are instructed to access the specific folder corresponding to their assigned student group and active clinical module to retrieve their definitive schedule.
